

## ANIMAL CLAUSE

The Car Co-op's Member Manual and The Company Car's Driver Manual state that in Co-op vehicles: "Pets are restricted except inside a secured pet box." We request that all pets be in a secured pet box (carrier) in order to keep your pet safe and our vehicles clean and share-able.

We understand that using a secure pet box may not always be possible. We try to be flexible with this rule while maintaining a sharing environment that is tidy, pet hair-free, pet odour-free and pet-allergen-free for other drivers. Because of this, we occasionally allow drivers to bring pets that are not in carriers into our **non-allergy-free** vehicles. This is only permitted if the pet owner:

- 1) uses drop sheets or towels to cover seats at all times
- 2) vacuums the entire interior of the vehicle thoroughly at the pet owner's expense before the vehicle is returned
- 3) wipes down all surfaces including windows before the vehicle is returned

**Pets cannot be brought into designated allergy-free vehicles under any circumstances.**

Costs for leaving a vehicle pet-messy and/or bringing a pet into an allergy-free vehicle may include:

- Pet-Messy or Allergy-Free violation fine
- Professional detailing of vehicle
- Reimbursement of taxi costs if the vehicle can't be used by another driver
- Reimbursement costs for lost revenue and staff admin time
- Compensation for dry-cleaning &/or aggravation pay for soiled clothing & disgruntled members

The above costs will be identified and set by The Car Co-op's office manager.

I hereby agree to the conditions and charges detailed above. I understand it is my responsibility to maintain this privilege of membership/drivership with The Car Co-op/The Company Car.
